

ANDERSEN

A stylish EV charging point that hides the integrated cable. The Andersen A2 enhances the charging experience for the enthusiast electric vehicle drivers with optional increased levels of 3-Phase, 22kW power and SMART controlled connectivity. Unrivalled aesthetics and pioneering technology are showcased perfectly in the Andersen A2.

- **ACCOYA**
Sustainable eco timber that doesn't rot.
- **DURABLE PAINT FINISH**
Exterior metal panels are nylon-coated for durability while the hand finishing process ensures a smooth even colour.
- **GUARANTEED TO LAST**
Made of solid stainless steel, our chassis comes with a lifetime guarantee.

HIDDEN CABLE & PLUG COMPARTMENT

We are the only charge point on the market that stores the plug neatly and out of site.

FULLY MODULAR

Allowing you to change the design of your charge point, for upgrade, repair or new.

STATUS LIGHTS

Subtle lighting giving you indications of your Andersen's charging status.

COMPACT SIZE

The ergonomic unit is elegant and discreet measuring 490 x 345 x 120 mm.

EVOFLEK CHARGING CABLE

Our custom designed cable is lightweight and highly flexible. It promises easy handling. Either 5.5m or 8.5m for 7kW charging, and 6.5m for 22kW charging.

WATERPROOF
